The Intelligencer

OFFICE: No. 15 Quincy Street. SATURDAY, MARCH 8, 1873.

Symptoms of popular disgust begin to show themselves over the corruptions of the defunct Congress. Two Congressional conventions were held in Connecticut three or four days ago and each passed resolutions denouncing the rascality of the Credit Mobilier speculations and of the increase of salaries. The Republican General Committee of New York have just done the same; and so probably will most political bodies that come to-Elections gether for sometime to come. occur in three New England States between now and the 8th of April; and it would not be surprising if the disclosures and legislation in the last Congress should have a marked influence on those elections. New Hampshire votes next Tuesday, Rhode Island on the 2d of April and | with a choose State officers, Legislatures and seven Representatives in Congress. Rhode Island is securely Republican, New Hampshire and Connecticut are close. New Hampshire was specially disgraced by one of her Republican Senators and it remains to be seen what influence Philad that fact, combined with the general indignation over the venality and reckless ness shown in the last Congress, will have. Of course the villainy was not all Republican. One Democrat at least was more of the opposition than of Republicans voted for the salary swindle. Yet is remains a fact that the Republican party will suffer far more than the Democratic: for infallibly all popular indignation over corruption in government upon the party in power as being responsible and answerable for whatever is done. Somebody is going to be held responsible for the way the Government has been plundered under Republican administration, and It is not likely it will be the opposition and minor ity. That is not generally the way the thing works.

A WRITER in the Washington Chronick is agitating for the "peaceable acquisition" of that portion of Mexico lying north of a line drawn from the mouth o the Rio Grande to the southern limit of the harbor of Mazatlan. The same writer thinks this and the acquisition of San Domingo are "rapidly assuming the proportions of a great national issue. This may be so with the schemers and jobbers who hang around Washington devising opportunities for plunder, but with the country generally the national issues are taking a very different direction and look more to economy and purieation than to expansion and jobbery.

Hon. JAMES BROOKS, in his recent letter to the President of the Union Pacific Railroad remarks spitefully that the "recent action of the House of Representatives" was in fact a declaration "that the House must be recruited hereafter from the almshouses of the country." Whereupon the New York World remarks "that nobody insists that Congressmen shall come from the almshouse, but everybody is desirous that they shall not deserve to go to the penitentiary."

THE best report of Inauguration Day was that made by the Washington Star which came out in the afternoon with a descriptive account of the day's doings that filled ten columns well written and closely printed. It is the tashion in New York to sneer at Washington journalism; but it is not often any of the metropolitan sheets do a more creditable piece of work than this.

On the roll call of the members of the House, on the vote to agree to the conference report of the Legislative Appropria tion Bill, the increase of salaries being the test question, the yeas were 103, nays 84. Of the yeas, 49 were Republicans and 54 Democrats and Liberal Republicans. Of the 49 Republican yeas, 18 were Southern members. Of the 103 yeas, 62 were outgoing members—that is to say, not elected to the 43d Congress.

STRUBENVILLE HERALD.-We were fa vored yesterday with a call from Mr ROBERT LOVE, soliciting agent for the Steubenville Herald. The Herald is an old and established journal, ably edited and always up with the times in the matter of news, both local and foreign Those of our citizens who have patronage so bestow on a Steubenville paper could not do better than give it to the Herald.

THE experiment of throwing open the doors of the Boston reading from on Sunday has proved a great success. On last Sunday about four hundred and twenty persons visited the room during the day majority being evidently mechanics who had no leisure time for reading. A large well trained family could hardly have maintained better order.

THE Tuscarawas Chronicle says that it is the general report in Railroad circles at Urichsville that Tom Scott has secured control of the Lake Shore & Tuscars was Valley Railroad, recently completed to that place. If that is the case he will let it cross the Pan Handle, or stop there, just as he chooses.—Cadie Republican.

Very likely he will choose to let it stop there, if the report be well founded.

THE report of the conference commit tee on the postal appropriation bill adopts the Senate provision prohibiting after July 1 any free matter whatever in the mails, which cuts off exchanges between newspapers and the free transmiss papers within the countles in which they are printed.

Tur iron-workers of Wales have had an untavorable ending of their strike. After remaining out of work for nearly two months, spending all their savings, and many suffering actual destitution, they have been compelled to return to the mills on their masters' terms.

ACENOWLEDGEMENT .- Our thanks for courtesies are due to Mr. FRANK JOHNSON, of the Postoffice, as they very frequently are to the delivery clerks, and especially to our good-natured and obliging friend FRED. WINGERTER.

A DANBURY boy having heard that a cat will invariably strike on her feet from whatever distance dropped, borrowed a cat and made the experiment from a bedroom window. Unfortunately the cat dropped before he was ready, and in a spasmodic effort to recover her, he less his balance, and rolled out of the window after her.
